

Zambian Polocrosse News – 8

VISITORS FROM TEXAS?

We have been in touch with Rodney Anderson, Charman Clevenger and members of America's Polocrosse Association and have discussed with them the possibility of getting teams together to come over and play informally (or hopefully, formally next year) in any of our tournaments. Rodney (who is a friend of the Coventry family) was to come out in June but unfortunately cannot make it now.

Ultimately we would love to receive players from other countries and host more International tournaments in Zambia. The only visiting country that we have hosted has been Zimbabwe. In 2004 they came to Zambia and Zambia took the cup and in 2006 we visited their home ground and left the cup behind. This year will certainly be a battle!!!

Herewith players from 3 year old Conroe Polocrosse Club that is perched on top of a hill in Texas. East Texas is home to the "big Thicket" with thick pine forests. The photos below are of Conroe Club's players in action and I have to say, doesn't the background look so like Livingstone? They also have a Livingston town and hour away from them. Their coach is a South African called Mark Buchanan and the thing that Rodney likes most about their club is that it has a great family atmosphere. Temperatures in Texas range from over 90 degrees with high humidity in their summer to mild winters occasionally reaching as low as 0 degrees in winter at night. *Ya'll have a nice day.*
